Technologies used :: (*Python 3 , PostgreSQL DB*)

Linked In Recommendation :
https://www.linkedin.com/in/eslam-ayman

Mahmoud Fouad
Software Development Section Head (Contact Center & Web Solutions) at Telecom Egypt
September 9, 2017, Mahmoud managed Eslam directly

"I was Eslam's Mentor during his training at TEData for two months. during his training, It was obvious he is a hard worker, fast learner and very talented developer. he helped me in developing application that enables employees to send SMS notifications for outages, he also helped me in Telecom Egypt IVR project. I believe that he would be an added value to any company and I strongly recommend him for any organization seeking a talented and committed developer."

Aly Elgarhy
Senior Web Designer at TEData
August 14, 2017, Aly was senior to Eslam but didn't manage directly

"Islam is very talent php developer and also have future as front end developer , i wish he can join our team very soon"
